MEMORANDUM FOR: [REDACTED] O/DD/I

25X1A

SUBJECT : [REDACTED] Research Objectives on Possible
Arms Control Roles of Scientific Organiza-
tions [REDACTED]

25X6

1. I do not believe the Central Intelligence Agency should reinforce the subject proposal by formally commenting upon it. It appears to me that ACDA is primarily concerned with subsidizing [REDACTED] and there is little or nothing we can do about it except to completely disassociate ourselves from this whole project. If we can, I recommend that we deny to [REDACTED] any classified intelligence information in connection with this project. Frankly, this is not a project in which I can identify any intelligence interests, and I do not believe that intelligence product should be employed as a technique to lend it an aura of respectability.

25X1A

2. I am not so sanguine as to believe that we could ever make this prohibition stick and, possibly, in the interests of harmonious inter-Agency relationships we do not want to do it; but I am in a snarling mood right now because this proposal has upset my entire day.
